

Deposit Schedule
Effective January 25, 2012

All new applicants will be asked to show Social Security card and driver's license. The credit report feature on UPN will be used to retrieve a credit risk score. This score will determine how much deposit is required to connect a service. In situations where the applicant refuses to show Social Security card, the maximum deposit will be charged. Deposit amounts will be determined as follows:

Score/ Risk Factor	Deposit Amount
0 – 10 (green light)(owner only)	\$0.00
0—10 (rental)	\$100.00
11-25	\$200
Greater than 25 (red light)	\$350

All deposit amounts will be paid when the application is made.

Yard Light deposits

Effective July 14, 2010:

Yard lights will no longer be charged a deposit when they are billed with the meter. If the account is a "yard light only" account, a deposit will be charged in the amount of the monthly fee of the light for each light in service.

Definition of Member in Good Standing: If the member has less than 4 late payments (credit code =1) within the last 12 months or they have been subject to cutoff (credit code=3) less than 2 times within the last 12 months, then the account is considered "**in good standing**".

Deposits and change of location for a member: When a member moves from one location to another and the member is not in good standing, then a credit report is required to determine the amount of deposit that is required to be posted to the new location.

Deposits for Landlord Maintenance: When a landlord requests a service to be turned on for maintenance and this is his/her rental property, the deposit will be \$50.00 for landlords who are already members and have their primary residence on the Co-op lines. Those landlords without a primary account on Broad River will be required to post a \$100 deposit.
